## Mr Wilkinson's Favourite Vegetables

Wilkinson, Matt

For chef Matt Wilkinson, vegetables come first. Whether he's cooking in the kitchen of his Melbourne eatery *Pope Joan* or for his young family at home, Matt plans and builds his dishes around the vegetables in season, when they'll taste the best, be cheapest and most readily available. Today too many of us - chefs and home cooks alike - plan our meals around the meat (or protein) and carbohydrate components letting the vegetables play second fiddle. In this book Matt Wilkinson lets his favourite 24 vegetables take centre stage. This beautifully illustrated book will appeal to vegetarians but it's not a vegetarian cookbook.

## Pressure Cooker Cookbook, The

Washburn, Laura

How can you enjoy slow-cooked flavours in a fast-paced world? Pressure cookers are the answer. They enable the preparation of delicious meals cheaply, quickly and efficiently because the food is cooked in liquid at temperatures far higher than in a conventional saucepan, shortening cooking time by up to 70 per cent. Because the method seals in flavour, cheaper ingredients can be used to great effect and since the cooking time is shorter you save on energy, making it one of the most ecofriendly cooking methods available. Time savings are impressive - braising beef takes just 30 minutes, a chicken casserole can be ready in 15 minutes.

In this fabulous book, chilli guru Dan shares more than 70 recipes celebrating chillies in all their varieties and strengths.

## Alzheimer's Prevention Plan, The Small, Gary

It's hard to pick up a paper without reading yet another story about Alzheimer's, most likely filled with news that contradicts the story you read yesterday. But Dr. Small's research is real, and it confirms that the same lifestyle choices (physical exercise, healthy diet, mental stimulation, stress reduction, and social engagement) that protect the body can also protect the brain. If one adds in good medical management and a routine that makes it easy to integrate these strategies into your daily life, you have a perfect prescription for an Alzheimer's prevention plan.

## Living in the Moment Black, Anna

Most of us operate on auto-pilot much of the time, passing through the present moment with our mind either caught up in the past or straining toward the future. Through mindfulness meditation, an ancient Buddhist practice, Anna Black shows you how to intentionally pay attention to your daily experience. In mindfulness meditation we pay attention to our ongoing experience whether it is pleasant - such as appreciating a starry night sky; unpleasant - a disagreement with a loved one; or neutral - doing chores.
